

## **Cape Verde**

Cape verde: the island of 10

Sapphire layers cooling you down from the scorching heat

Pure particles reflecting on the golden sunset.

A community full of bliss

creole - broken down portuguese

A language that I have grown fond of

Even the traditional food- cachupa

Angola: a country located by the southern/western coast

A small island- Ilha

Beach parties are based there

The journey to reach the destination is one boat ride

As the boat speeds ahead,

You are welcomed with sprays of salt water

Sunsets that can only be admired in person.

## **Chantelle Bango**
